# Group of companies “Dniprovka”

The "Dniprovka" Group of Companies is a prominent entity in the poultry industry and stands out as a leading Ukrainian producer of broilers, recognized by the brand name "Ulas."

The Group is committed to maintaining complete control over all its operations, and to achieve this, it adheres to a 100% vertically integrated structure.

In 2020, the company commissioned a state-of-the-art slaughterhouse, showcasing cutting-edge processing technologies. This strategic investment facilitated the achievement of remarkable production volumes at competitive market rates while ensuring the delivery of products that adhere to the highest quality standards.

## The primary activities of the company:

Poultry  
breeding

Plant  
growing

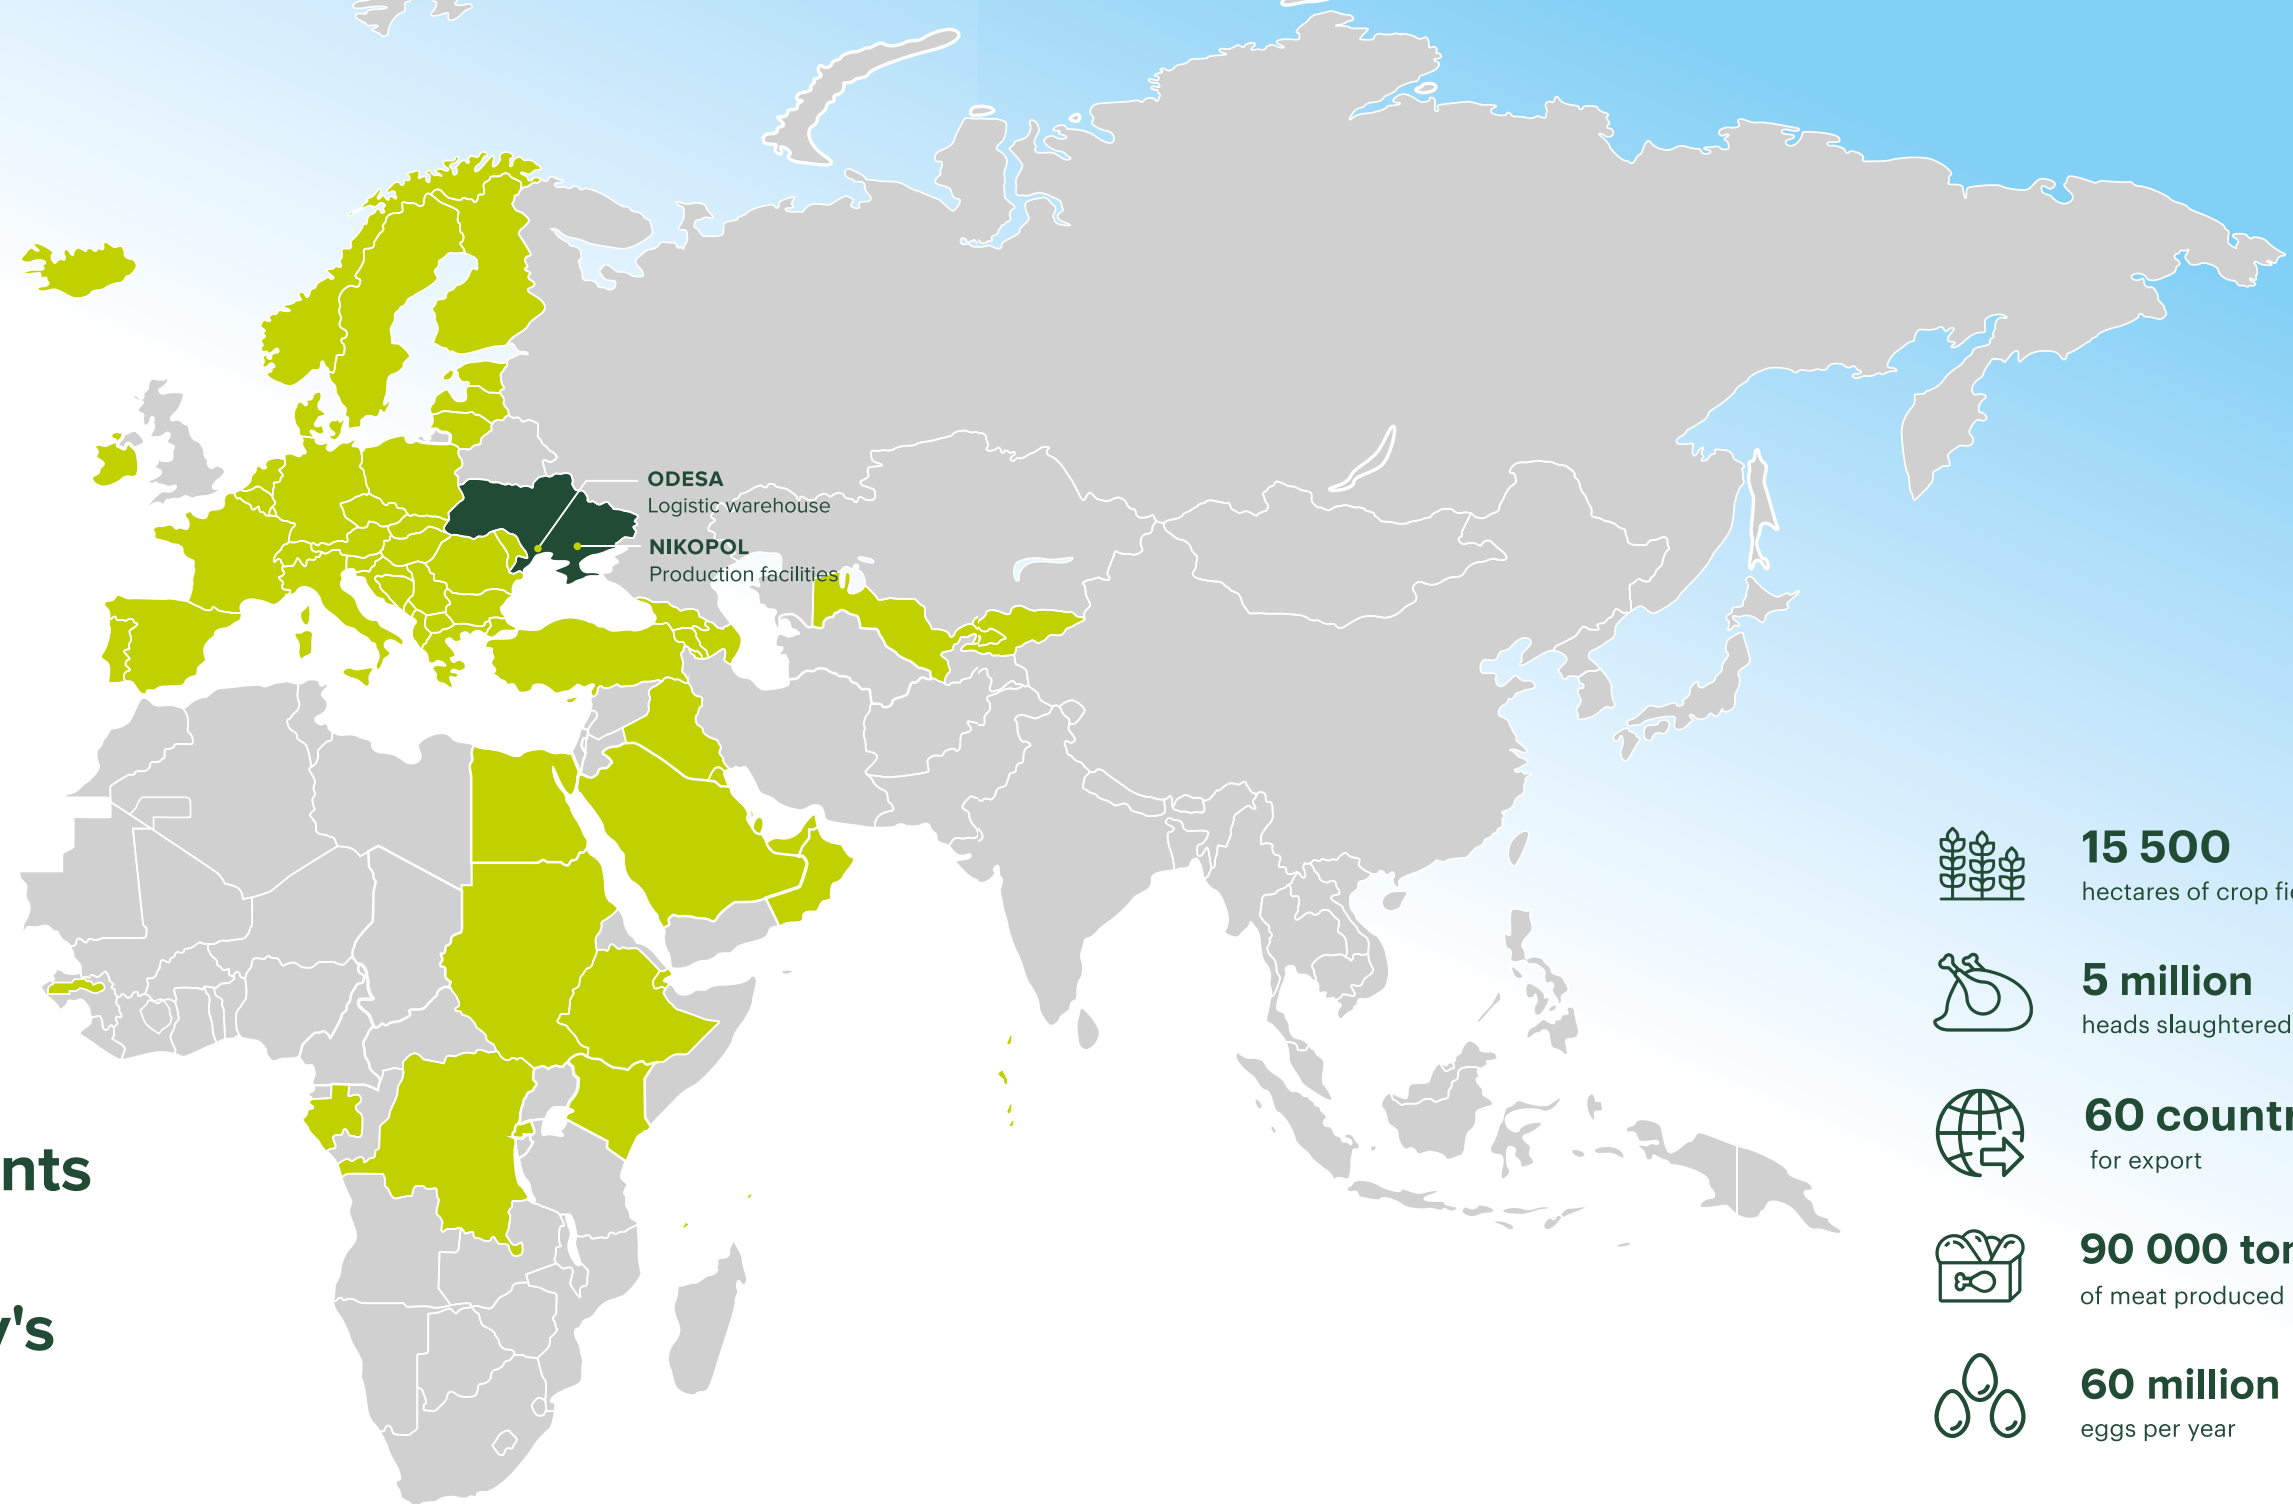

Processing  
of industrial  
crop

Chicken meat  
& Processed  
products

hectares of crop fields

**5 million**  
heads slaughtered per month

**60 countries**  
for export

**90 000 tons**  
of meat produced in 2022

**60 million**  
eggs per year

## Poultry complex “Dniprovskiy”

### History:

With 45 years of experience, "Poultry Complex "Dniprovskiy" has evolved into one of **Ukraine's largest poultry producers**. Our journey of growth and transformation includes significant structural improvements and a focus on technological progress.

### Market Presence:

We hold approximately 10% of the Ukrainian market share, ranking as **the second-largest poultry company in the country**. Our broiler chickens, branded as "Ulas," are globally supplied, and known for their competitive prices and adherence to international quality standards.

### Global Reach:

Our products are well-established in Ukraine, European Union, CIS, the Middle East, Africa, Asia, and beyond, gaining popularity in numerous regions and countries.

## Our key points of quality:

### **Non-GMO Certification:**

By implementing our own feeds and a robust traceability system, reinforced by stringent government oversight, we have earned the prestigious non-GMO certification.

### **EU Approved:**

Our products have received explicit approval from the European Union, signifying that they meet the stringent regulatory and quality standards set by the EU for agricultural and food products.

### **Halal Products:**

All our chicken is slaughtered according to Islamic Law Under the Constant Supervision of the Halal Certification Center.

### **Grade A Quality:**

Our company's extensive experience and advanced technologies enable us to produce Grade A products consistently, subject to rigorous quality standards and continuous supervision.

### **ISO 22000, ISO 9001:**

Our company adheres to International Quality and Safety Standards, subject to regular SGS Audit control.

### **DSTU (State Standard of Ukraine):**

Officially registered under governmental veterinary control with number 04-09-46, we employ certified technologies for poultry breeding, drawing upon advanced international experience, qualified personnel, and efficient production management methods.

NO  
GMO

# Critical points of quality:

## No Hormones:

Our company adheres to a stringent food control system prohibiting using hormones in feeding.

## Exclusively Natural Feeds:

Our commitment to excellence drives continuous expansion and cutting-edge advancements, ensuring our chickens are exclusively fed with 100% natural, in-house produced feeds, guaranteeing complete safety control and enhancing our market standing.

## Laboratory Control:

All products undergo full laboratory control to ensure product quality.

## End-to-end production cycle:

The company offers an end-to-end production cycle — from cultivating top-grade grains for feed to meticulously nurturing chickens in a controlled environment. This comprehensive approach ensures a traceable supply chain, delivering premium poultry products.
